At the Tier 2 level, in addition to the Tier 1 interventions, these students received specialized groups and/or individual therapy depending on the needs of the students. In these sessions; our students supports (LCSW, soon to be LPC and LMSW) work with students on behavioral contracting, check-in/check out, and peer or adult mentoring, and dialectical behavior therapy. Additional social skills instruction is provided for students with skill deficits (we use Ross Greene's Collaborative Proactive Solutions (CPS) Model ALSUP form to identify lagging skills. Life Space Crisis Intervention is frequently used with Tier-2 students to help them calm themselves so they can return to the classroom setting. Students are easily triggered due to past trauma and behavioral issues. Close

At the Tier 3 level, all of the previous aforementioned supports are in place (Tier 1 and Tier 2) but at this level, we begin to involve community mental health to consider medication management and/or therapeutic intervention at the community level. Mental health partners may assign a CSI worker (intensive community based support) or licensed counselor. In some cases for children with severe emotional and behavioral needs, the system will contract with an Applied Behavior Analyst to assist with service delivery and consultation. We currently have 2 students being served in the school through an ABA. We also begin to consider involving the interagency planning team to consider other available community supports and plan for implementation. Some students in Tier 3 have needed

Service Delivery – Severe Behavior Management & De-escalation

List the training provided to staff for the prevention and management of severe behaviors, including the use of restraint: (e.g., MindSet, CPI, LSCI).

What percent of your staff are trained in these strategies and how do GNETS administrators and supervisors ensure that these initiatives are implemented with fidelity?

All staff receive MindSet Safety Management Training for both verbal de-escalation and physical restraint techniques. We have 7 MindSet instructors with current certification. These instructors are situated in several of our satellite classrooms and supervision occurs weekly with all teams. Teams review crisis situations and restraints, discuss de-escalation and restraint procedures followed, and debrief so that future restraints are prevented. Teams write up minutes for each review. All staff are retrained/re-certified at least once a year, with brief reviews occurring every 6 months. All new staff receive initial MindSet training within 2 weeks of hire. Regular substitutes are provided MindSet training but are encouraged to get the other students out of harms way and allow veteran staff to

Service Delivery – Crisis Management

Briefly describe the procedures used for the safety of staff and students. Describe how new staff are provided with initial training about GNETS crisis management procedures.

*How often are updates in crisis management provided for all staff?

Normal • Sans Serif • B I U A

Staff are recertified in MindSet yearly and an update is given half-way during the year to refine procedures and practice interventions. Staff also have de-escalation training and PesonBrain model training (trauma-informed care approach which helps staff understand the brain's functioning during a crisis. 13 staff trained in Life Space Crisis Intervention which is over half of our staff. Each year we encourage 2-5 staff to get certified in LSCI with the eventual goal of 100% of our staff receiving full LSCI Certification. (Please see documents for a list of staff and the required trainings this year).

*How many new staff members are trained in crisis management?

3

Normal • Sans Serif • B I U A

We had 3 new staff this year trained in MindSet. Total, we have 13 staff trained in Life Space Crisis Intervention which is over half of our staff. Each year we encourage 2-5 staff to get certified in LSCI with the eventual goal of 100% of our staff receiving full LSCI Certification. We have 7 trained MindSet instructors responsible for training and coaching new staff.

Service Delivery – Instructional & Academic Supports

Instruction in Georgia Standards of Excellence (GSE)

*What strategies/steps are implemented to ensure that all students have/will have access to Georgia Standards of Excellence (GSE)?

Subheading: Sans Serif : B I U A [icon] [icon] [icon] [icon] [icon] [icon] [icon] [icon] [icon] [icon]

All teachers utilize online programs that deliver instruction based on the Georgia Standards of Excellence. Students K-5 utilize Moby Max. 6-12 uses GradPoint, OdysseyWare or Edgenuity based on the home system's preference. All students use i-Ready for 15 minutes per day.

*Describe the professional learning that will be provided for staff to deliver and monitor grade level GSE.

*How many staff members are trained to deliver GSE?

10

Subheading: Sans Serif : B I U A [icon] [icon] [icon] [icon] [icon] [icon] [icon] [icon] [icon] [icon]

All teachers are trained in formative instructional practices with the requirement that they complete the following modules:

- Introducing Formative Instructional Practices (FIP001)
- Creating and Using Clear Learning Targets (FIP002)
- Collecting and Documenting Evidence of Student Learning (FIP 003)
- Using Evidence and Feedback to Increase Learning (FIP004)
- Leading Formative Instructional Practices (FIP006)
- ELA (Elementary, Middle, High School) (1 Hr) (FP1008=Elem, FP1009=MS, FP1010=HS)

*Describe the procedures for monitoring the delivery of classroom instruction and student outcomes.

Subheading: Sans Serif : B I U A [icon] [icon] [icon] [icon] [icon] [icon] [icon] [icon] [icon] [icon]

Instruction is monitored through the Teacher Keys Effectiveness System. Walkthroughs are conducted by certified TKES observers. Teachers are required to complete progress reports every 9 weeks but they complete weekly progress monitoring that gets posted in our google drive on all students. The progress monitoring is reviewed by the treatment coordinator and director.

*Math interventions being used in our program:

Subheading: Sans Serif : B I U A A IE IE IE B B B I

i-Ready math is used as s a comprehensive assessment and instruction program that empowers educators with the resources they need to help all students succeed. By connecting Diagnostic data and Personalized Instruction, *i-Ready* reduces complexity, saves educators time, and makes differentiated instruction achievable in every classroom. Teacher Toolbox was also purchased so that teachers have access to academic interventions and supports. i-Ready lessons are reviewed daily by teachers. Additional support is given where students struggle with content. Students use i-Ready math a minimum of 15 minutes per day. Other supplemental programs vary by LEA include Freckle, GoMath, Math Flipbooks, Math Talk Moves, STAR Math, ThinkCentral/Soar to Success, and IXL. In

*Writing interventions being used in our program:

Subheading: Sans Serif : B I U A A IE IE IE B B B I

Write from the beginning is a developmental, vertically aligned K-12 writing curriculum utilized as a writing intervention. It helps students internalize the skills and strategies used by effective writers, so they can apply them in academic discourse wherever their paths take them. Other supplemental programs focusing on writing vary by LEA including Write Now, Cover-Copy-Compare, Sentence Combining, Self-Correction with Verbal Cues and Integrated Writing Instruction.

*How are teachers supporting students when they are not making progress?

Normal • Sans Serif • B I U A [icon] [icon] [icon] [icon] [icon] [icon]

When students are not making progress, teachers communicate with them during weekly interviews where they review data and help with skill deficits. Many of our students come to us several grade levels behind and school in general has been seen as a failure by the student. Students frequently act out before they will admit they are having academic challenges so teachers respond very positively, providing low risk, safe environments where mistakes are not criticized but embraced. Students need to feel safe to strive to learn. Another method use is having students self-evaluate and identify their own strengths and weaknesses which leads to self-improvement. Teachers highlight the students

*How is academic data being used by leadership to support students, staff and parents?

Subheading • Sans Serif • B I U A [icon] [icon] [icon] [icon] [icon] [icon]

Typically the N count by grade is less than five so it is a challenge to analyze data on a programmatic level. Leadership is present at the IEP meeting and, along with the team, data is analyzed for progress on the IEP goals as well as progress in academic, grade-level standards. Instructional usage data is regularly provided to teachers with goals to improve data. Growth on i-ready standards are publicized for parents and students. In addition, diagnostic data is reviewed by all staff during professional learning at the mid year and end of year professional learning meetings. Staff problem-solve and share ideas to improve progress.

*Describe the procedures used to ensure supplemental academic interventions are implemented with fidelity.

Subheading • Sans Serif • B I U A [icon] [icon] [icon] [icon] [icon] [icon]

The i-Ready Instructional Usage data is reviewed and shared at least every two weeks. Teachers are required to hold weekly meetings with students to insure instructional usage is met as well as passing scores of 80 or above. Students retake lessons where this criteria is not met. When domains are shut off, teachers utilize assignments in Teacher Toolbox to redeliver content to students and they attempt lessons again. Teaching teams are required to post weekly reports on the student's i-ready which includes lessons passed and # of minutes on the intervention. They also post the online delivery #of minutes / lessons passed. These go on the students online class dojo portfolio so the parent is made aware weekly. Other supplemental programs are reviewed by each satellite team
